

MT-MRT-MHT
OPTIONS GUIDE

 **MANITOU**
HANDLING YOUR WORLD

INTRODUCTION

Find in this literature all options available for the MT-MRT-MHT ranges.
The price list is the reference to ensure compatibility of options on machines.
This presentation is a description of options.

SYMBOL TABLE

S	Standard
0	Optional
--	Not available

INDEX

• 12V power supply in boom head	86
• 35 kph speed	157
• 220V electrical reheating of hydraulic oil	106
• 230V socket with circuit-breaker on boom head	89
• Adjustable and telescopic steering column	45
• AEOLUS 17.5R25 A2233	13
• Air supply in boom head	87
• Antiperforation liquid	30
• Automatic stabilizers movement	127
• Auto reversing fan	102
• Auxiliary brake and back-up steering	147
• Battery charger for radio control in cab	153
• Battery isolator with electric control in cab	103
• Bi-energy system	129
• Biodegradable oil	124
• Bluetooth car radio	34
• Bluetooth car radio with microphone	35
• Camera in boom head with screen in cab	138
• CAMSO SKS HAULER 12-16.5	26
• CAMSO SKZ HAULER 12-16.5	27
• Car radio antenna	36
• Ceiling light	44
• Centralized greasing points	112
• Clamp predisposition (controls from cabin)	151
• Cold environment exhaust	107
• Comfort Ride Control (CRC) boom suspension	77
• CONTINENTAL 445/65 MPT AC 70G	19
• Continuous flow	75
• Cyclonic prefilter	93
• Digicode anti-theft device	136
• Displaced access to wheel reduction gear pivot pins	101
• Document-case	42
• Double effect rear hydraulic predisposition	121
• Easy Connect System (ECS)	76
• Easy Manager	156
• Electrically operated tilting fabric seat	49
• Electric predisposition on the foot of the boom	85
• Electric predisposition on the top of the boom	84
• Electronic stairway + door + window opening	128
• Electrovalve 2 hydraulic functions on the top of the boom	80
• Electrovalve 3 hydraulic functions on the top of the boom	81
• Engine bonnet: opening lower section	123
• Engine brake	100
• Engine pre-heating	98
• External toolbox	116
• Extinguisher	137
• Flat led rotating beacon	61
• Frame levelling	122

INDEX

• Front right and left working lights (x2)	64
• Fuel heater	97
• Fuel tank locking cap	145
• GOODYEAR 16R25 EV-3	11
• GOODYEAR 17.5R25 RL-5K	12
• GOODYEAR 18R25 EV-3	14
• GOODYEAR 23.5R25 EV-5K	15
• Hand throttle	37
• Height-adjustable ladder hitch	115
• High capacity battery	104
• Hydraulic line for attachments with fast coupling	79
• Hydraulic locking of attachments on T.S.	82
• Hydraulic trailer braking	146
• Inner rear view mirror	43
• Ladder hitch with fixed eyebolt	114
• Lateral wiper	55
• LED front right and left working lights	65
• LED rear right and left working lights	68
• LED working light at the top of the boom foot on fixed part	69
• Load moment indicator (LMI)	78
• Low-frequency pneumatic seat with heating	48
• «LYNX» specific Audio warning on reverse movements	144
• Manual air conditioning	38
• Manual towing hitch	110
• Material baffle on the boom head	83
• Mechanical cloth seat	46
• MICHELIN 18R19.5 TL XF	17
• MICHELIN 18R22.5 XF 1E TL	10
• MICHELIN 18R22.5 XF1E TL	21
• MICHELIN 162A8 400/80-24	22
• MICHELIN 168A8 440/80-24	23
• MICHELIN 445/65R22.5 XZY3	20
• MICHELIN Bibsteel All Terrain 305/70 R16.5	29
• MICHELIN Bibsteel Hard Surface 305/70 R16.5	28
• MICHELIN XHA 15.5 R25	25
• MICHELIN XMCL 460/70 R24	24
• Mirror on rear of the machine	111
• MITAS 445/65 R22.5 AR01	18
• MITAS 445/65R22.5 MPT 06-L	16
• Modcle anti-theft device	135
• Oil vapour recycling	96
• Overhead guard	134
• Platform with winch predisposition	149
• Pneumatic cloth seat	47
• Projecting towing axle	119
• Protective grille for front and rear road lights	71
• Quick drain tool	99
• Rear camera with screen in cab	140

INDEX

• Rear electric plug	113
• Rear licence plate lighting	60
• Rear right and left working lights	66
• Rear right working light	67
• Rear window stay	51
• Rear window with de-icing	50
• Reinforced shaft	141
• Remote control	148
• Return pipe to hydraulic oil tank	74
• Rib handler predisposition	152
• Rim spanner	31
• Self-cleaning air prefilter «TURBO 2»	95
• Self-cleaning prefilter	94
• Set of 4 shims	118
• SHELL DONAX TG oil	125
• Shift-on-Fly transmission	130
• Side camera rear view with screen in cab	139
• Single effect rear hydraulic predisposition	120
• Slide bay opening window on I.H. Door	52
• Special color paints	158
• Speed limiter	92
• Stainless steel tool box on turret	117
• Stop & Go system	105
• Sun visor on roof window	40
• Sun visor on roof window and windscreen	39
• TELUS T32 oil	126
• Water supply in boom head	88
• Windscreen sun visor	41
• Windscreen wiper (front/roof)	56
• Windscreen wiper on roof window	53
• Windscreen wiper on roof window and right side window	54
• Windshield and roof protection grill	143
• Windshield protection grill	142
• Working lights at the top of the boom foot on fixed part (x2)	62
• Working lights on boom head	70
• Working lights on cab	63
• Working platform predisposition with remote control	150

TYRE OPTIONS

MICHELIN 18R22.5 XF 1E TL

DESCRIPTION

Mixed-surface applications (hard / soft ground).

ADVANTAGES

- Possible to travel at sustained speeds
- Resistance to impact and damage
- Continuous centre tread
- Effective self-cleaning
- Excellent traction

Machine compatibility	18R22.5 XF 1E TL

GOODYEAR 23.5R25 EV-5K

DESCRIPTION

Cut and abrasion resistant compound.
More ground contact (compared to 18" width tyres).

ADVANTAGES

- Perfect for quarrying and mining applications.
- Reduced ground pressure (due to tyre width).

HAND THROTTLE

DESCRIPTION

Engine speed can be adjusted manually, independently of the accelerator pedal.

- The operator can move at a constant engine speed while working with attachments such as sweepers.
- Electronic memory included.

ADVANTAGES

- More comfort when using a sweeper
- Accuracy of work

MANUAL AIR CONDITIONING

DESCRIPTION

The air conditioning radiator is outside the cab.

ADVANTAGES

- Provides an ideal temperature.
- Perfect for demisting.
- Maximum operator comfort, whatever the weather conditions.
- Perfect if you cannot open the windows (e.g. in dusty conditions).

DOCUMENT-CASE

DESCRIPTION

Document holder generally used to protect the operator's manual. A clamp may also be used as a document holder. If a clamp is used, rental companies can check if the operator's manual has been opened and read in the event of an accident.

ADVANTAGES

- Protects machine documents from dust, water...
- You can check if the operator is reading the documents inside (for example: operator's manual...)

LED WORKING LIGHT AT THE TOP OF THE BOOM FOOT ON FIXED PART

DESCRIPTION

The boom working lights are fitted at the top of the fixed part of the boom.

ADVANTAGES

- Visibilité accrue sur la flèche et la charge dans des conditions de faible luminosité
- Improved visibility

WORKING LIGHTS ON BOOM HEAD

DESCRIPTION

The working lights are installed at the top of the moving part of the boom. There is no cable reel: the electrical cables are inside the boom.

ADVANTAGES

- Maximum visibility of the load in dark and low-light conditions.
- Better upward visibility

PROTECTIVE GRILLE FOR FRONT AND REAR ROAD LIGHTS

DESCRIPTION

This option is often used in the waste industry or construction sites.

ADVANTAGES

- Helps to prevent accidental breakage.
- Less machine maintenance and downtime

BOOM OPTIONS

RETURN PIPE TO HYDRAULIC OIL TANK

DESCRIPTION

This option is recommended for various attachments with hydraulic motors* (for example: winch, jib with winch, aerial jib platform 1 and 2, sweeper, high-pressure washer...) Please check with your Manitou contact.

ADVANTAGES

- Safer use of the attachments

CONTINUOUS FLOW

DESCRIPTION

It ensures a constant rate of work with a hydraulic attachment (no need to continuously press a switch and / or a roller to obtain the hydraulic supply). This solution is very useful for attachments that require a constant hydraulic supply.

ADVANTAGES

- Operator comfort
- Greater efficiency

EASY CONNECT SYSTEM (ECS)

DESCRIPTION

The ECS releases the residual pressure in the hydraulic attachment line and facilitates connection/disconnection of attachments.

Press the "ECS" button.

Then connect or disconnect the hydraulic attachment connectors.

ADVANTAGES

- Saves time (attachment changing is quicker over time)
- Less fatigue
- Greater safety as the operator avoids the risk of injuries and oil splashes
- Greater profitability: increased service life of starter (no need to stop the engine when changing attachments) and coupler.

COMFORT RIDE CONTROL (CRC) BOOM SUSPENSION

DESCRIPTION

Boom suspension is controlled by the operator via the switch located on the machine's dashboard.

ADVANTAGES

- More comfort when driving on the road or on the site
- Charge remains more stable when driving
- Extended machine service life

HYDRAULIC LOCKING OF ATTACHEMENTS ON T.S.

DESCRIPTION

Hydraulic locking instead of standard manual locking.
Available as manual or electric control.

ADVANTAGES

- Saves time: switch rapidly from one attachment to another.
- Less fatigue: no need to get out of the machine (for non-hydraulic attachments: forks...)
- Still possible to fit a hydraulic attachment

ELECTRIC PREDISPOSITION ON THE TOP OF THE BOOM

DESCRIPTION

The electrical predisposition on the boom is used to control an attachment fitted with an electrovalve (for example, a concrete mixing bucket BMC500), from the cab.

Info: the electrical predisposition (12V) on the boom is included with the electrovalve option.

ADVANTAGES

- Versatility: option of using different types of attachment.
- No "hanging" electrical cables as the electrical predisposition is at the head of the boom (next to the attachment).

12V POWER SUPPLY IN BOOM HEAD

DESCRIPTION

12 volt power supply at boom head to power a 12v attachment. This system is controlled by a switch in the cabin for supplying power to the equipment.

ADVANTAGES

- Enables an appliance to be powered without adding an additional electrical line to the machine

230V SOCKET WITH CIRCUIT-BREAKER ON BOOM HEAD

DESCRIPTION

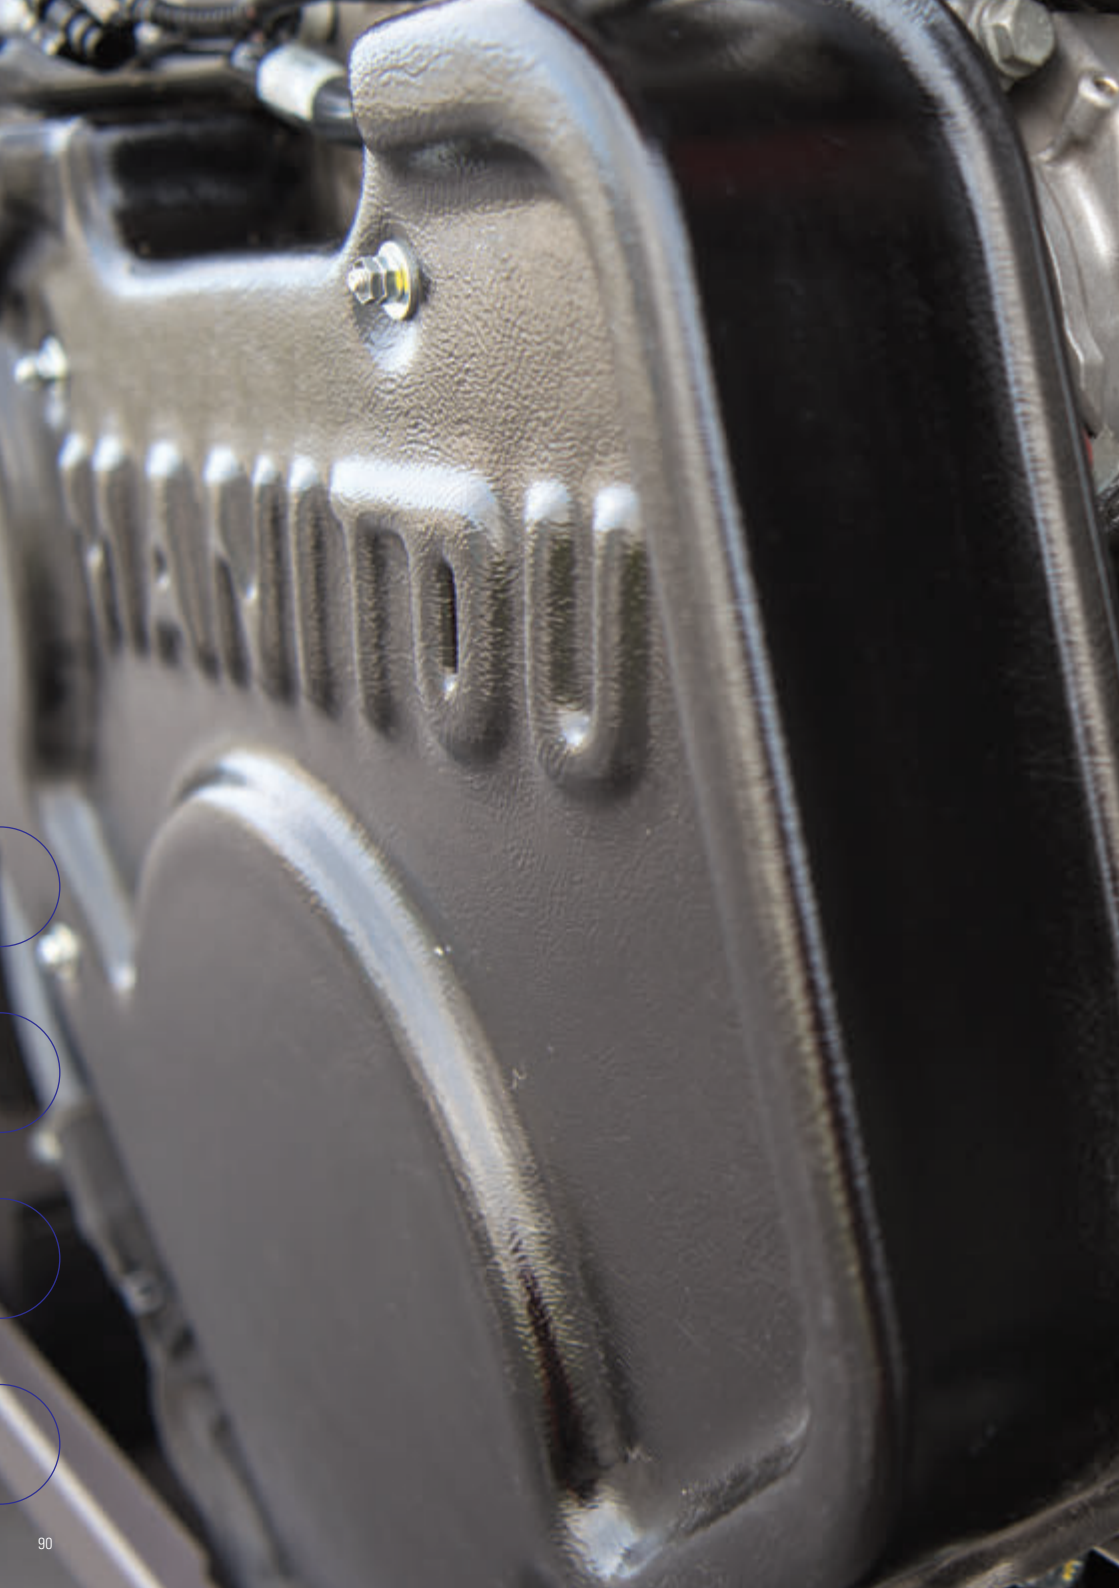

Electrical line runs along the boom to supply power to a 220V appliance (portable). At the back of the turret, the system is equipped with a circuit breaker and fuse as a safeguard in case of cable failure.

ADVANTAGES

- Prevents electrical cables hanging down when using a platform, and prevents the risk of entanglement around the turret

SELF-CLEANING AIR PREFILTER «TURBO 2»

DESCRIPTION

Prefilter with cyclone technology: captures up to 98% of impurities in the air before it enters the main air filter.

Specific characteristics: stainless steel; black galvanised paint.

ADVANTAGES

- Increased air filter service life
- Increased engine service life
- Good engine performance, even in dusty environments
- Almost no human intervention required to clean the pre-filter (self-cleaning)

FUEL HEATER

DESCRIPTION

It is integrated into the engine fuel filter system.
It warms the fuel before it reaches the engine fuel filter.

ADVANTAGES

- Ideal for cold countries (see "cold climate kit")

ENGINE PRE-HEATING

DESCRIPTION

Inside the engine compartment, there is a heating element on the water circuit with a connection to an external 220 V power supply.

When the telehandler stops at the end of the day, connect the machine to pre-heat the engine.

ADVANTAGES

- Ideal for cold countries (see "cold climate kit")

ENGINE BRAKE

DESCRIPTION

it increases the engine braking power by shutting off the flow of exhaust gas.

ADVANTAGES

- Recommended for machines that drive a lot on "mountain roads" (also for mining applications)
- Increased brake disc service life
- Increased braking power

DISPLACED ACCESS TO WHEEL REDUCTION GEAR PIVOT PINS

DESCRIPTION

A solution to facilitate greasing of the front and rear wheel reduction gear pivot pins.

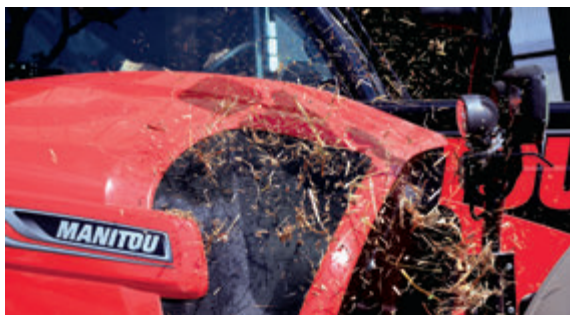

ADVANTAGES

- Easier access to the rear and to the front greasing points (top and bottom): more convenient for the technician
- Better machine maintenance, less risk of wear and damage
- Half the time needed to grease the four pivots

AUTO REVERSING FAN

DESCRIPTION

With this system, the radiator stays clean.

The system is fully automatic when it is activated with the "automatic fan reverse" option.

Every 3 minutes, the direction of rotation of the fan is reversed for 15 seconds. With the manual reverser switch, you can choose to reverse the fan just once. This option still includes flow control.

ADVANTAGES

- Prevents engine from overheating
- The engine radiator is always clean and efficient
- Less machine maintenance and downtime

220V ELECTRICAL REHEATING OF HYDRAULIC OIL

DESCRIPTION

Heating element under the metal hydraulic oil tank with a connection to an external 220 V power supply. When the telehandler stops at the end of the day, the operator can connect the machine to pre-heat the hydraulic oil.

This option is also available in 110 V, for the American market.

ADVANTAGES

- Ideal for cold countries
- Prevents very slow hydraulic movements at the beginning of the day

SINGLE EFFECT REAR HYDRAULIC PREDISPOSITION

DESCRIPTION

Single hydraulic connector at rear of the machine.
Commonly used for lifting trailers or other applications requiring a hydraulic power supply at the rear of the machine.

ADVANTAGES

- Operator comfort
- Option of using trailers with hydraulic cylinders

ELECTRONIC STAIRWAY + DOOR + WINDOW OPENING

DESCRIPTION

Stairway controlled electronically from radio-control. Add an extra step when the stabilisers are deployed to reduce the height of the first step.

Also includes electrically controlled cab door and opening and closing of window.

ADVANTAGES

- Makes it easier for the user to get in and out of the cab when the machine is stabilised
- Prevents the need to climb the steps to unlock the door

BI-ENERGY SYSTEM

DESCRIPTION

Power system replaces the internal combustion engine for inside work.

Operates on three-phase 380V power.

Combined with a predisposition on MRT 3050 and 2470 that allows the bi-energy block to be removed.

ADVANTAGES

- No exhaust gas emissions when working inside
- Noise reduction

MODCLE ANTI-THEFT DEVICE

DESCRIPTION

The operator requires a special key to be able to start up the forklift. 20 seconds after the forklift has stopped, the anti-theft device is activated and the forklift is immobilised. The special key is required to re-start the forklift.

ADVANTAGES

- Improved anti-theft protection

AUXILIARY BRAKE AND BACK-UP STEERING

DESCRIPTION

An electric pump facilitates steering and braking in the event of engine failure.

ADVANTAGES

- Safe solution
- Mandatory for certain applications and countries (for example: mining industry in Australia, Chile...)

REMOTE CONTROL

DESCRIPTION

The remote control is used to control telescopic boom movements on the ground.

ADVANTAGES

- Useful when using jibs and cranes
- Better positioning of load
- increased visibility, as the operator can be close to the load
- Increased safety.

WORKING PLATFORM PREDISPOSITION WITH REMOTE CONTROL

DESCRIPTION

- Single control unit for remote controls (telescopic and hydraulic attachment movements) and controls from the basket.
- 2 removable batteries and 1 charger are included with this option.
- Radio brand: Autec.
- This option is mandatory for working with platforms.
- The 3B6 system and E-Reco are mandatory with this option.

ADVANTAGES

- Option of using the machine with a platform
- Remote control: option of operating the machine from outside the cabin (adapted to the movements of the telescopic boom and hydraulic equipment that is running). Better view of the load
- Removable batteries. Possible to charge one battery while using the other.

CLAMP PREDISPOSITION (CONTROLS FROM CABIN)

DESCRIPTION

- This option includes a clamping movement selector (located inside the cab) and clamping predisposition.

This option is available in 2 versions:

- 1st version: the machine is not equipped with the platform predisposition. => The option is more expensive.
- 2nd version: the machine is already equipped with the platform predisposition. => The option is less expensive.

This option (1st or 2nd version) is mandatory for using clamps.

ADVANTAGES

- Option of using the machine with specific attachments: tyre and cylinder clamps

OTHER OPTIONS

EASY MANAGER

DESCRIPTION

Easy Manager is a simple and flexible tool for optimising the operational monitoring of your equipment. The option is available at the time of ordering or at a later date.

ADVANTAGES

- View the geographical location of the machine and its operation in real time
- Control your budget while ensuring optimal maintenance of the machine
- Analyse the performance of your equipment to optimise use and fuel consumption
- Protect your equipment from theft and unauthorised use
- Control access to your equipment, authenticating users and ensuring their safety
